

SILVER OAK SECURITIES, INC.
Business Continuity Plan

Silver Oak Securities, Inc. has developed a Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions are unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us – If after a significant business disruption, you cannot contact us as you usually do at 731-668-3825 or billyhopkins@silveroaksecurities.com, you should call our alternative number 731-616-0364. You may also contact us through our web-site www.silveroaksecurities.com. If you cannot access us through either of those means, you should contact our clearing firm, INTL FCStone at 800-240-1438 and SEC# 8-51269 for instructions on how it may provide prompt access to funds and securities, enter orders and process other trade-related, cash, withdraw funds and security transfer transactions for your customers. For TD Ameritrade, Inc. see <https://www.tdameritrade.com/home.page>. For Charles Schwab, Inc. see <https://www.schwab.com/>.

Our Business Continuity Plan – We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption. Our business continuity plan addresses: data back-up and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business. Our clearing firm, INTL FCStone backs up our important records in a geographically separate area. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, our clearing firm has advised us that its objective is to restore its own operations and be able to complete existing transactions and accept new transactions and payments with little interruption. Any interruption should be minimal equaling only the time to reconnect to alternate location via back up date lines. Your orders and requests for funds and securities could be delayed during this period.

Varying Disruptions – Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within one business day. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area and recover and resume business within one business day. In either situation, we plan to continue in business, transfer operations to our clearing firm if necessary, and notify you through our customer emergency number 731-616-0364 regarding how to contact us.

For more information – If you have questions about our business continuity planning, you can contact us at 731-668-3825 or billyhopkins@silveroaksecurities.com.
